PAUL MITCHELL

Health and Safety Data Product List

In the interest of best business practice, The Hairdressing & Beauty Suppliers Association issue "A Guide to the Health & Safety of Salon Hair Products". The latest edition is the 8th edition and was issued in September 2008.

IMPORTANT

Some products are considered to be 'non-hazardous' and others are considered to contain ingredients, which are classified as 'hazardous'. To assist you in the proper handling of these products we have two lists one for non-hazardous and one for hazardous products. The **HAZARDOUS PRODUCT** list has the name of the product and the relevant product category in the booklet "A Guide to the Health and Safety of Salon Hair Products"
